Reading [1]

Shopping online- Yes or No?

Injy - I love online shopping!

Shopping online is great! Firstly, it saves my time. I don't want to spend lots of time travelling to the shops. I can stay at home and buy the things I want in a few minutes. Secondly, I have more choice online. Also, if more people shop online, there will be fewer cars on the road and less pollution! I will do all my shopping online when I am older.

Baher - I prefer going to real shops in my city

Every time I buy clothes online, the thing that I buy is wrong! At a shop, I can see what I am buying and I can try it first. Also, I don't like to waste time waiting for a delivery - I want things now! If everyone shops online, the shops in our town and cities will close. If they close, then lots of other businesses like cafes will close, too.

Reading [1]

The Time Machine

By H G Wells

London, England, 1895

A group of friends meet for dinner at the Time Traveller's house. After dinner, the Time Traveller asks his friends if they think that it is possible to travel through time.

"It's impossible!" they reply, "We can only travel through space, not time". The Time Traveller shows them a small model of a machine that he has in his hand.

"This is a copy of a machine that I believe can go through time. It took me two years to build", he tells them. The friends laugh.

"Pull this lever," he tells one of them.

They feel some wind and then the machine suddenly disappears!

"Where is it?" the other men ask.

"The model machine is in the future," the Time Traveller says. "Would you like to see the real machine?" he asks.

He takes them to another room. Inside the room is another, bigger machine. It is not finished.

"In this machine," he says "I will explore the past and future!"

Many people text, check social media or watch videos online late into the night. Then they don't get enough sleep.

Eye Problems

If you spend a lot of time on screens, you can have eye problems and headaches.

Ear problems

Listening to loud music or films through headphones can damage your hearing.

Exercise

Many people spend hours playing video games or watching TV and don't spend enough time outside doing exercise .

Listening Text

Debate about : All computer games are bad for you

- Hanan** : Do you think that all computer games are bad for you, Lama?
- Lama** : In my view, not all computer games are bad. Some of them can help you to learn things.
- Hanan** : I agree. If you don't play computer games all the time, it shouldn't be a problem.
- Lama** : In my opinion, playing games late at night stops you sleeping.
- Hanan** : I agree. It is not a good idea to play games late at night though.
- Lama** : Yes, It's a good idea to only play quiet, calm games in the evening.
- Hanan** : If you only play games that teach you things in the evening, it should be fine.

Videoscript

- Narrator** What do you use when you want to find out the time?
Do you use a watch or do you use a clock?
These clocks either use numbers to tell the time or they use hands. These hands show hours, minutes and seconds. But how did people know the time in the past? In Ancient Egypt, people used sundials. Sundials use position of the sun to tell the time. Then, in the year 1524, a scientist from Damascus called Taqi al-Din invented a watch that looked like watches of today. It had three hands to show hours, minutes and seconds. It was also small, so people could carry it with them.
But watches today don't only tell you the time. Some watches will say that you should do exercise if you are sitting at a computer for a long time! And some have apps, such as maps, that will give you directions if you are lost. What will the watches of the future be like? Some will be like modern mobile phones. If someone calls you, you will be able to see them on a special video screen.
And some will look after your health. They will tell you what medicine you should take if you are ill, or that you should see a doctor.
